

EASTER BUMP GAME

Make 11 egg shapes on a piece of paper.

Place the numbers; 2,3,4,5,6,7,8,9,10,11,12 inside each of the boxes.

You are now ready to play the game.

- You will need 2 dice or playing cards or make your own number cards.
 - If you have dice you are ready to play.
 - If you are using cards, you need all the, A's (1)2's, 3's,4's,5's,6's out of the deck of cards. Shuffle the cards and take 2 cards when it is your turn. Put cards under the deck when finished.
 - If you do not have dice or cards, cut square paper and make 4 of the numbers,1, 2,3,4,5,6. Play the same way as cards.
- You will also need 11-20 pieces per player to cover up your numbers. These can be Lego pieces, Coins, Cereal, macaroni, or other items you have around the house.

To Play:

Each person rolls the dice or takes 2 cards. Add the numbers together.

Cover the number on the game board with your pieces.

The next person has a turn.

If another player rolls/draws the same number, they can bump and replace the piece with his/her own.

If you roll a number you already have you can put 2 pieces on the number and it locks it so the other players can not knock off your piece.

Play continues until all the numbers are covered.

❖ **Students have played this game lots in class and should be familiar with the rules.**

❖ **Have Fun!**
