Measuring Insects

- Print off and cut out the insects below. If you do not have a printer, draw your own insects using 3 different sizes.
 - Use the insects to measure different things around your house and complete the chart below.

Object around	Insect 1-	Insect 2-	Insect 3-
the house	Grasshopper	Beetle	Ant
1.			
2.			
3.			
4.			
5.			

1.	Which object was the longest?			
2.	Which object was the shortest?			
3.	. How iss the grasshopper's measurements different from the ant's			
	neasurements?			
4.	Why were the measurements different for each of the insects?
