

Roll a Graph

- You will need a dice, and different coloured pencils or crayons.
- Roll the dice for a total of 15 times.
- Each time you roll put a tally mark on the number box you rolled.

1	2	3	4	5	6

- Now take the results of your tally chart and colour the bar graph.

Number of times dice landed on the number.	10						
	9						
	8						
	7						
	6						
	5						
	4						
	3						
	2						
	1						
		1	2	3	4	5	6

The number on the dice.
